Group Piano Classes

Learn the piano in a fun, social atmosphere! This class is a comprehensive beginner’s course of piano study that builds a solid foundation for music learning through active group participation. Students will develop proper piano techniques, review/learn note reading/theory and learn the fundamental skills necessary to pursue piano more extensively in the future. At the end of the semester, students will participate in a performance for parents. **Students who complete 3 semesters of group piano (summer camp, fall, and spring) will “graduate” from this course and be ready for future private piano study.**

ABOUT LAUREN

Lauren graduated from DePauw University with a bachelor's degree in music education (vocal emphasis) in 2011. She currently teaches elementary music part-time at Farmersville Elementary in Mt. Vernon and previously taught 3 years of middle school choir, 2 years of high school choir, and is now approaching 8 years in the elementary music world. She has taught private voice and piano lessons on the side for 15 years at "Lessons with Lauren". She loves working with students of all ages! Lauren began teaching the piano/vocal camps at Kindermusik with Julie in the summer of 2022. She lives in Evansville with her husband- Caleb, two children- Calvin (7) and Claire (4), and a pet gecko. They love trips to the zoo and playing board games!

Why group piano lessons?

1. Greater accountability to practice.
2. 1 hour session length allows for frequent changes in activities. Kids are made to move, and we can get off of the bench to play music games or have a general music mini-lesson. Students will still get plenty of individual attention and can move at their own pace, but we will never sit in one place for longer than 15 minutes at a time.
3. Kids can learn piano in a social atmosphere among their peers. Music is most fun when we make it TOGETHER!
4. We can play for each other! Students gain confidence performing in front of a group and learn from each other in a masterclass-like setting.
5. Group lessons provide a bridge between young childhood musical experiences such as Kindermusik and middle school music ensembles (choir, band, and orchestra) or more intensive private lessons.
